

## ESOS Newsletter

December 2020

Welcome to the Energy Savings Opportunity Scheme newsletter.

It has been a very difficult year and continues to be challenging. We are conscious that we have not issued a newsletter for some time now and so wanted to send this brief note wishing you all enjoyment over the festive season and hoping that 2021 will be a brighter year for everyone.

As for ESOS we will re-commence regular newsletters from January.

Kind regards

The Environment Agency ESOS Team
